

On 29/03/21 when the capital celebrated Holi, the Trauma Center of AIIMS received about 160 cases of road accidents, falls and assault cases from various parts of the Delhi including NCR region. Every year, the Sapna team lends a helping hand to the hospital administration to take care of the large inflow of patients. This year we roped in 17 volunteers, largely attendants of patients at Safdarjung Dharamashala. The Sapna teams along with volunteers were on duty from 11 am till 10 pm.

The Sapna team coordinated activities at the special help desk and provided information about the patients to their relatives. On arrival, the patients were decontaminated with water shower and provided clothes and drinking water. Sapna helped with the registration process, assisted and accompanied the patients for X-ray, CT Scan, and Ultrasound. Sapna organized biscuits and drinking water facility for the patient's attendants. Sapna would like to thank Dr. Harsh, Dr. Tej Prakash, and nurses of AIIMS for having given us this opportunity to be the part of this venture.
